Test results and evaluations

KOX loggers tape measures 15 m, 20 m and 25 m

KOX – Partner im Forst - Blount GmbH
Lise-Meitner-Str. 4, 70736 Fellbach

Application field

Measuring long and short logs

Test item	Test results
Operation	Simple, pre-tensioned spring mechanism for easy spooling. Excellent spooling quality in good conditions. Claw hook or quick-release hook for safe grip in wood.
Measuring tape	Tape made from spring steel with one sided nylon protective cover, graduated on both sides. Good readability, centimetre graduation with decimetre (black) and meter marks (red) on yellow background.
Maintenance	Open tape spool, therefore somewhat susceptible to dirt, but also easier to clean and maintain. Simple replacement, some experience needed.

Description

Aluminium case with sealed spring, replaceable tape, riveted end piece protected by rubber bumper.

Technical data's

Version	15 m	20 m	25 m
Case diameter	91 mm	106 mm	106 mm
Height	45 mm	45 mm	45 mm
Weight	544 g	614 g	719 g

Field tested by professional users

The KOX loggers tape measures 15 m, 20 m and 25 m are made unchanged with a single change, a nylon protective cover on the tape.

Extension of existing approval until January 2024

(First approval October 2012)
